[Provisionally adopted the 13th day of May, A.D. 1899.]

WHEREAS a majority in number and value of the owners, as shown by the last revised assessment roll of the property hereinafter set forth to be benefited by the drainage, have petitioned the Council of the said Municipality, praying for the drainage of the following lands in said Township 35, within the boundaries of the said Municipality of Spallumcheen, commencing at a point on boundary between J. Laur and Wood, Cargill & Co., in S.W. $\frac{1}{4}$ Section 9; thence north-easterly to old creek; thence easterly and north-easterly, following the direction of the old creek, to a point joining the old creek in N.E. $\frac{1}{4}$ Section 15:

And whereas thereupon the said Council procured an examination to be made by J. P. Burnyeat, C. E., being a person competent for such purposes, of the said locality proposed to be drained, and has also procured plans and estimates of the work to be made by the said J. P. Burnyeat, and an assessment to be made by him of the land to be benefited by such drainage, stating as nearly as he can the proportion of benefit which, in his opinion, will be derived in consequence of such drainage by every lot or portion of lot, the said assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied upon the lots and parts of lots hereinafter in that behalf specially set forth and described, and the report of the said J. P. Burnyeat in respect thereof, and of the said drainage, being as follows:—

“VERNON, B. C., April 7th, 1899.

“*The Reeve and Councillors of Spallumcheen Municipality, Armstrong:*

“SIRS,—Pursuant to your instructions of February 13th to proceed with the survey of Bennett Creek drain, I have the honour to enclose you herewith plan, profile, details of acreage to each owner, and minor details of construction and estimated cost, together with statement of time of men employed, board, and other accounts.

“Levels were run and measurements taken to establish limit of benefit area, and a height of 18 inches was adopted for such limit above the banks of the Bennett Creek. After the high water, and before commencement of work, the centre stakes will require to be marked with the cuts, and slope stakes set out, and a specification prepared for the guidance of the contractor.

“The ditching already done in the old channel between Stations 27 and 69 will be utilized by the new channel, and the line from Station 88 to the end was run along old bed of creek and near the foot-hills, thereby cutting the narrow meadow as little as possible.

“The ditch will be $2\frac{1}{2}$ miles long, and for the first 4,000 feet will require to be eight feet wide on bottom, and the balance 10 feet wide, and sloped one to one, having an average depth of about four feet.

“The scheme is wholly feasible and practicable, and the estimated cost is \$3,585.

“I have the honour to be, gentlemen,

“Your obedient servant,

(Signed) “J. P. BURNYEAT, C. E.

And whereas the said Council is of opinion that the drainage of the locality described is desirable:

Be it therefore enacted by the said Municipal Council of said District Municipality of Spallumcheen, pursuant to the provisions of the Municipal Act:—

1. That the said report, plans, and estimates be adopted, and the said drain, and the works connected therewith, be made and constructed in accordance therewith.

2. That the Reeve of said Township or District Municipality may borrow, on the credit of the Corporation of the said Township or District Municipality, the sum of three thousand five hundred and eighty-five dollars (\$3,585.00), being the funds necessary for the work, and may issue debentures of the Corporation to that amount, in sums of not less than one hundred dollars each, and payable within twenty years from the date thereof, with interest at the rate of six per centum per annum, that is to say, payable on the first day of November in each and every year, such debentures to be payable at the Bank of Montreal, Vernon, B. 3. aforesaid against each lot or part of lot, respectively, shall be divided into twenty equal parts, and one such part shall be assessed and levied as aforesaid in each year for twenty years after the final passing of this by-law during which the said debentures have to run.

NEW WESTMINSTER CITY BY-LAWS.**WATER-WORKS REGULATION BY-LAW, 1899.*****A By-Law to Regulate the Water-Works of the City of New Westminster.***

WHEREAS it is desirable to make further and better provision for the regulation of the Water-works of the City of New Westminster :

Therefore the Municipal Council of the Corporation of the City of New Westminster enacts as follows :—

1. The "Water-works Regulation By-law, 1893," the "Water-works Regulation Amendment By-law, 1895," and the "Water-works Regulation Amendment By-law No. 2, 1895," are hereby repealed.

2. In this By-law, and in any resolution passed under the authority of clause 6 of this By-law, the word "City" shall mean the City of New Westminster; the word "Council" shall mean the Municipal Council of the Corporation of the City of New Westminster; the word "Works" shall mean the Water-works of the City of New Westminster; the word "Service" shall mean and include the supply of water from the said works to any person, company or corporation, and all pipes, taps, valves, connections, and other things necessary to or actually used for the purposes of such supply; "Meter-service" shall mean a service having attached thereto a meter for determining the quantity of water supplied by such service; "Consumer" shall mean a person, company or corporation, who is the owner, or agent for the owner, of any premises to which water is supplied from the works, and also any person who is the occupier of any such premises, and also any person who is actually a user of water supplied to any premises or by any service from the works; "Rate" shall mean the price or sum of money to be paid by any consumer either for the quantity of water supplied to him, as measured by a meter, or for a service to his premises for a stated period of time; "Rent" shall mean the sum of money charged for the use of a water meter; "Superintendent" shall mean the officer for the time being in charge of the works; "Garden-irrigation" shall mean the sprinkling or pouring of water by means of any hose, watering pot or other utensil, upon or under the surface of the ground.

3. The Council shall not be liable for the failure of the water supply in consequence of any accident or damage to the works, or any temporary stoppage thereof on account of alterations or repairs, whether such failure arises from the negligence of any person in the employ of the Corporation, or other person whomsoever, or otherwise howsoever; but in the event of such failure or stoppage continuing for more than five consecutive days an equitable reduction will be made on all rates for services affected thereby.

4. It shall be lawful for the Council to throttle or entirely discontinue any service when the consumer has been guilty of violating any of the provisions of

this By-law, or when, in the opinion of the Council, the public interest requires such action.

5. If at any time the water in the reservoir shall be less than 150,000 cubic feet, it shall be deemed to be in the public interest to throttle or discontinue any or any or all services until the water in the reservoir shall have increased to more than 150,000 cubic feet; but no household or hotel service shall be throttled or discontinued until all other services have been first throttled or discontinued.

6. It shall be lawful for the Council, from time to time, to fix, by resolution, the rates to be paid by consumers for the use of the water supplied to them from the works, and the rent to be paid for water meters, but when such rates or any of them are higher than the rates previously charged to consumers, the increase shall not apply to existing services until the expiration of one month from the date of the first publication of such resolution in some newspaper circulating in the City.

7. The Council shall furnish to any consumer or ratepayer, on application, one copy of a printed statement showing the rates and rents for the time being in force; and such statement shall set forth—

The rates upon which water will be supplied :

(a.) For a fixed sum to be paid either month by month when due, or quarterly, half-yearly, or yearly, in advance :

1. To residences.
2. To business premises.
3. For miscellaneous services.
4. For temporary services.
5. For garden irrigation.

(b.) By meter :

The monthly, quarterly, half-yearly or yearly rent chargeable for meters.

8. All monthly rates and meter rates and rents (except such rent as may be paid in advance), as the same shall be from time to time fixed by the Council under the provisions of this By-law, shall be due and payable at the City Treasurer's Office, City Hall, or to any person authorised by the Council to receive the same, on the first day of the month following the month for which they are due and payable; but any consumer who shall pay such monthly or meter rate within ten days after the same shall have become due, shall be entitled to a rebate of twenty per cent. upon the amount thereof.

9. Consumers paying the rate in advance shall be entitled to the following discounts from the rates set forth in the statement of rates in force at the time of such payment :—For a payment of three months' rate in advance, twenty-five per cent.; for a payment of six months' rate in advance, twenty-seven and one-half per cent.; for a payment of one year's rate in advance, thirty per cent.

10. The rate for garden irrigation shall be based upon the estimate of the amount of water which will be discharged by a single garden hose, during the legal hours, for the season, regard being had to the extent

of ground to be irrigated. No consumer who is supplied otherwise than by a meter service, shall use any water for garden irrigation until he has obtained a permit therefor. Permits for garden irrigation shall be for the season, and may be issued at any time after the 15th day of May in each year. Each permit shall authorise the holder to use water for garden irrigation at such times, and at such times only, as the Council shall from time to time fix. It shall be lawful for the Council, or for the Superintendent, when expressly authorised by the Council to do so, to fix the days and hours upon or during which garden irrigation shall be allowed, and to alter the same from time to time, or to prohibit such garden irrigation, without other or further notice than the publication of the order in a newspaper circulating in the City, and it shall be the duty of every consumer to conform to such notice, and every consumer failing or refusing to do so shall be guilty of a breach of this By-law.

11. No permit for garden irrigation shall be issued except upon the payment of the full amount chargeable thereon for the season in advance.

12. Water shall not be supplied to any consumer otherwise than by a meter service, unless and until such consumer shall have stated in writing the purpose for which such water is to be used, and any consumer using water for any purpose other than the purposes named in such statement, shall be guilty of a breach of this By-law.

13. Applications for the laying of service pipes, or the turning on or off of the water to or from any premises, shall be made in writing at the City Treasurer's Office, and when such application is for the laying of a service pipe or the turning on of water, except in cases where the water has been turned off at the request of the consumer or in consequence of the infringement of the provisions of this By-law, it must be signed by the owner of such premises or by his duly authorised agent, signing as such, and such owner shall be personally responsible for the payment of all rates and rents until he shall have delivered to the City Treasurer a duly signed notice ordering the discontinuance of such service; provided, however, that the Committee of the Council for the time being having control of the works may accept an application signed by a person other than the owner or his agent, upon the written statement of such person, that it is impossible to obtain the required signature at the time, but in all such cases it shall be lawful for the Council, upon giving one week's notice, to turn off the water in case an amended application, signed in accordance with the provisions of this section, be not supplied within a reasonable time: And provided further, that water may be supplied to any tenant or occupier who shall and so long, and so long only, as he shall pay for the same in advance.

14. Upon the receipt of such application from the owner or occupant of any premises the Council may provide and lay down an ordinary house service from the main to the street line or boundary, but the expense of distribution of water through buildings, or parts of buildings, shall be borne or paid for by the proprietors, tenants, or occupants thereof; and for each such connection from the main the Council shall be entitled to demand and receive from the applicant a sum not exceeding \$5.

15. Only the ordinary house service pipe for the supply of any single house or premises shall be laid by the Council for the sum mentioned in the next preceding section, but any person desiring more than such service for the supply of his premises shall, subject to the approval of the Council, be supplied with the same, and shall be charged with the extra cost.

16. Any person making application for the laying of service pipes other than ordinary house services from the main to the street boundary shall, at the time of making such application, deposit with the Treasurer a sum equal to the cost of providing such service, such cost to be determined by the Superintendent, and upon receipt of such sum the Council may provide and lay such pipe.

17. The Council shall in every case determine the size of the pipe to be used in supplying any premises and also the position in the street in which it is to be laid.

18. The Council shall not be liable for the cost of any work done in connection with any service on the premises of a consumer, except the placing of meters; but the Council may, at the request of any consumer, do any such work for a price to be agreed upon, and in such cases all material used in such work, whether furnished by the consumer or by the Council, shall be held to be the property of the Council until the price

agreed to be paid for the doing of the work has been paid.

19. No work of any kind connected with the water services, either for the laying of new or the repair of old services, shall be permitted to be done upon or under the streets by any person other than an employee of the Council.

20. Any directions as to the position in which it may be desired to have the service pipe laid, when such directions do not interfere with the requirements of the Council, will be complied with, when given in writing at the Treasurer's Office, and the applicants shall be notified of the time at which the service pipe is to be laid.

21. If any person so notified as above shall fail to appear at the time appointed for laying the service pipe, the work may be proceeded with in the ordinary way, and any subsequent alterations may be made at the expense of the consumer.

22. All underground pipes shall be not less than fifteen inches below the surface of the ground, and all other pipes, where so situated as to be exposed to frost, shall be properly protected, and it shall be the duty of every consumer to see that all pipes, taps, fittings and other things connected with the service, within his premises, are good and sufficient and put in accordance with the provisions of the Plumbing By-law, and that a "stop and waste cock" be properly placed, to drain such service, when necessary, and the Council shall refuse to turn on the water to any premises, and shall discontinue any service, in case this provision is not complied with to the satisfaction of the Superintendent.

23. No water closets, except such as are of a pattern or action approved by the Council, shall be permitted in connection with any service other than a meter service. It shall also be lawful for the Council to prescribe the make or pattern of tap to be used in connection with any service other than a meter service, and to refuse to grant or to discontinue any such service unless and until its instructions are complied with.

24. If any consumer shall use an unusual or unnecessary quantity of water, or allow water to run to waste, whether wilfully or by permitting leaky pipes to remain unrepaired, or shall vend, give, or dispose of such water to others than the members of his household, as stated in his application (occasional guests or visitors excepted), or shall allow any other person to vend, give, or dispose of water from the works in such manner, or increase by any device or expedient, the amount of water agreed to be supplied to him by the Council, or practice any deception upon the Council, or its agents, with a view to obtain a supply of water greater than he should reasonably be supposed to obtain, according to the terms of his application, he shall be guilty of a breach of this By-law.

25. Any consumer supplied otherwise than by a meter-service, who shall desire to discontinue the use of water for any of the purposes stated in his application for such service, as provided by clause 12 of this By-law, shall give notice of his intention at the City Treasurer's Office, City Hall, and shall further show, to the satisfaction of the Superintendent, that the use of water for such purpose has been discontinued, and that any fittings used for the supply of water for such purposes, have been disconnected, and, thereupon, his original application, and the rate charged thereunder, shall be amended accordingly.

26. The Council may refuse to supply water to any consumer, or to any premises, otherwise than by a meter-service, and every meter shall be placed in position by the officers of the Council, who shall have free access to the premises of every consumer for such purpose, and also for the inspection of meters and other things connected with any service: Provided, that no officer of the Council shall demand access to the premises of any consumer at improper or unreasonable hours, or shall damage any property of any consumer, or be guilty of any improper or offensive conduct while upon the premises of any consumer.

27. Every consumer having a meter-service shall pay for the full amount of water, as registered by the meter, according to the rate applicable to the service, and no deduction shall be allowed on account of any waste of water, unless it be shown that such waste arose from an accident to the pipes or the fittings on the premises of the consumer, arising from some cause beyond the control of such consumer, and unless it be further shown that the consumer used all reasonable diligence to stop such waste.

28. Consumers must give five days' notice of the discontinuance of any service, and such notice must be

in writing, and must be delivered at the City Treasurer's Office, City Hall, or sent to the said City Treasurer by pre-paid letter, properly addressed, and the burden of proof of delivery or posting of such notice shall be upon the consumer. Every consumer shall be liable for the full amount of rates and rents chargeable for the service for five days after such notice has been so delivered or received at the said office.

29. When any service has been discontinued from any premises for non-payment of rate or rent, or infringement of terms, or of this By-law, or at the request of the consumer or of the owner of the premises, the Council may require payment of a fee not exceeding fifty cents before ordering the service to be resumed.

30. In case of the non-payment of rates or rents for thirty days after the day upon which they shall have become due and payable, the Council may cut off the service in respect of which such rates or rents are due without notice.

31. When any rates or rents remain unpaid for thirty days after the day upon which the same may have become due and payable, the Council shall sue for and recover the same in the Small Debts Court or other Court of competent jurisdiction.

32. No contractor, builder, or other person shall use for building purposes of any kind or description any water from any pipe or main of the water works without a written permission from the City Treasurer, nor until the rate fixed by the regulations in force at the time has been paid, and all rules made for properly protecting the supply pipe have been complied with.

33. No person shall destroy or injure, or in any manner tamper with, any hydrant or other fixture or property of the works.

34. No person shall obstruct, at any time, or in any manner, the access to any hydrant, valve, stop-cock, or other fixture connected with the works, and should any person obstruct access to any such fixtures by placing thereon, or near thereto, any brick, stone, timber, or other material, the Superintendent, or other authorised agent of the Council, may remove such obstruction at the expense of the offending person.

35. The Superintendent, or any person authorised by him, may make personal inspection of all pipes and taps used for distributing water in any building in the City, and, if any be found leaky or defective, or if any waste of water is found to exist, notice will be given to have the defects remedied, and if they are not so remedied within twenty-four hours from the service of such notice, the water supply may be turned off.

36. No person, except the duly authorised agents of the Council, shall tap or make any connection with the city mains, or turn off or on any corporation stop-cock.

37. No hydrant shall be used for watering or for any other purpose by any person, except by the Fire Brigade in case of fire, or by the Superintendent, except special written permission be given by the Council.

38. No person shall in any manner interfere or meddle with the water service in any street, or make any addition or alteration whatever in or about, or turn on or off, any corporation stop-cock or gate without permission of the Council or the Superintendent.

39. This by-law may be cited as the "Water-Works Regulation By-law, 1899."

Done and passed in open Council the 5th day of June, 1899.
